Our 20 hectares vineyard is one of the most representative properties of the clay and limestone northern coast of Saint-Emilion. Varietals planted are merlot, cabernet franc and cabernet sauvignon.

The work carried out in the vineyard and in the cellar is focused on bringing the fruits aromas and achieving a wine which displays roundness and preserves all the elegance that can be gleaned from the terroir.

Our aim is to produce a great wine, while having the less impact for the environment. We respect nature and we maintain biodiversity. Château Larmande's team uses good environmental practices and common sense.

Since 2018 vintage, we are certificated level 3 « Haute Valeur Environnementale » (HVE), high environmental value.
