

CHÂTEAU MAZEYRES 2020

Consultant Alain Moueix

Vineyard Manager Jean-Michel Bernard

Cellar Master Thomas Cézac

Communication Stéphany Lesaint

Weather conditions

The 2020 vintage is a vintage of contrast.

The winter was unusually rainy. Spring was hot and humid, almost tropical. The mildew appreciated a lot. The early flowering took place in a variable way de-pending on the grape varieties, the terroirs and the weather at the time.

Then, just before summer, the rain stopped to give way to dry and rather temperate weather until veraison approached. From there, the heat, sometimes very strong, dominated the period. The thunderstorms in mid-August were needed and allowed the vines to continue their cycle until the harvest.

Sometimes irregular flowering and extremely dry conditions gave rather low yields in most situations.

Harvested early, the grapes were ripe and give generous wines.

Surface area	23.82 hectares
Terroir	gravels clay and sandy soils
Grapes varieties	72.5% Merlot - 25% Cabernet Franc 2.5% Petit Verdot
Harvest date	8 th to 21 st september 2020
Vineyard management	Organic and biodynamics Certified by FR-BIO-01 Agriculture France Contrôlé Biodyvin Certified par FR-BIO-01 Agriculture France Contrôlé Biodyvin by Ecocert France SA
Ageing	54% in barrels and foudres 46% in small concrete vats and amphores
Yield	30 hectoliters/ha
Production	69 500 bottles
