

Château Pibran 2023, Pauillac

AOC Pauillac, Bordeaux, France

PRESENTATION

Château Pibran estate benefits from a prestigious, 17-hectare terroir on one of Pauillac's most beautiful hilltops.

The wines benefit from exceptional support, with the vinification process and technical monitoring both carried out by the Château Pichon Baron team.

THE VINTAGE

- A dry, mild autumn was followed by a cold, wet winter.
- Very abundant rainfall replenished the soil's water resources. With 456 mm, there was 30% more rainfall than in 2022.
- Budburst started in early April, with frost on 5th April causing little damage.
- Spring was generally dry and warm. Flowering took place in very good weather conditions.
- Tropical weather at the start of July was followed by a dry, hot end to the month, with no heat waves.
- Early August was cool and cloudy with very welcome rain helping to keep a high level of acidity in the grapes.
- Ripening proceeded well in warm weather conditions, with some welcome rainfall on 20th September, particularly beneficial for the Cabernets.

HARVEST

The harvest took place from 12th September to 4th October:

- Merlot from 12th to 22nd September,
- Cabernet Franc on 16th and 21st September,
- Petit Verdot on 19th September,
- Cabernet-Sauvignon from 23rd September to 4th October.

VINIFICATION

Maceration temperatures were maintained between 25 and 27°C. Extractions were mainly performed during mid-fermentation, and the duration of post-fermentation maceration was refined through daily tastings.

The Merlots were drawn off from 30th September to 12th October and the Cabernets from 10th to 24th October. Malolactic fermentation took place rapidly sous marc, allowing the wine to be transferred to barrels in separate batches. This was completed by 4th November. 2023 is characterised by pure, fresh and precise fruit. The wine strikes a distinctive balance between tension and power. It presents the fruit and finesse

AGEING

40 % in new barrels, 60 % from barrels of one vintage for 18 months.

VARIETALS

Cabernet sauvignon 54%, Merlot 46%

13.1 % VOL.

TECHNICAL DATA

pH: 3.7

Total acidity: 3.7 g/l
